Established in 1978, NYC Parks GreenThumb is proud to be the nation’s largest urban gardening program, assisting over 550 gardens and over 20,000 volunteer gardeners on 100 combined acres of open space throughout New York City. GreenThumb’s mission is to educate and support community gardens across the five boroughs while preserving open space. By providing free garden materials, technical assistance, educational workshops, and seasonal programs, GreenThumb supports neighborhood volunteers who steward community gardens as active resources that strengthen communities.

Grow Herbs in Your Windowsill Using Hydroponics

Happy Healthy Latina, Grow to Learn, and GreenThumb

Learn how to save money and extend your growing season using one of the oldest methods of window farming: hydroponics. Hydroponics is a method of growing plants using only water and nutrients and a couple of household items you may already have! Learn about the benefits and drawbacks to this growing method as well as how it compares to soil-based growing. You will leave the workshop with your own deep-water culture and one of the following herbs: cilantro, culantro, parsley, spinach, mint, thyme, or basil.

This workshop will be offered with Spanish translation.

Este taller se ofrecerá con traducción al español.

All About ULURP: Who Decides How Land is Used in NYC?

Center for Urban Pedagogy and GreenThumb

What is ULURP? How can communities shape NYC’s decisions about land use and development? Led by Mark Torrey, from the Center for Urban Pedagogy (CUP), ULURP stands for Uniform Land Use Review Procedure and it’s the process by which major land use changes get reviewed and approved in New York City. In this hands-on workshop with CUP, you’ll learn the different players involved in the process and the role that communities can play in decision-making, all as you take a tour through all the layers of government and public approvals. Learn how ULURP works, how ULURP impacts community gardens and other neighborhood land uses, and where community members can get involved.

All participants will receive a chef hat and apron.

Apply Today for the GreenThumb Leadership Academy

NYC Parks GreenThumb is launching a new program to support people in leadership positions at community gardens. Garden leaders play a deeply important and unique role behind the scenes making sure community gardens are thriving and welcoming public spaces. These trainings will be for gardeners who are newly elected and stepping into leadership roles for the first time, garden leaders who are passing the torch to someone new, and any other garden coordinators who are transitioning to a more open, collectively managed group structure. We are inviting two people per garden to apply to be part of the first cohort of the GreenThumb Leadership Academy, which will include topics such as:

- Overview of GreenThumb, the GreenThumb Gardeners’ Handbook, and the landscape of city agencies
- Meeting facilitation
- Uprooting racism
- Conflict resolution
- Self-care and avoiding burnout

Workshops will be held every Saturday in January and February 2020. Please apply at bit.ly/GTLeadershipAcademy2020 by Wednesday, Oct. 30. Each gardener must apply separately, but there will be space in the application to let us know who you are applying with. Upon completing the GreenThumb Leadership Academy, graduates may be asked to join a group of garden leadership mentors who can help advise struggling gardens. Like all GreenThumb workshops and trainings, this program is free of charge.

Host Youth Volunteers in Your Garden!

Mentor the next generation of gardeners by being a host site for GreenThumb Youth Leadership Council (YLC) members. The YLC is an intergenerational, service-learning program for youth between the ages of 12 and 21 to volunteer in a community garden. Host sites will receive extra supplies and YLC members can help with special projects. If your garden is interested in hosting YLC members in 2019–2020, please visit bit.ly/YLCGarden20. For questions or to request a printed application please call (212) 602-5308.
Uprooting Racism

Leah Penniman (Soul Fire Farm) and GreenThumb

Uprooting Racism is a training for community garden leaders to uproot systemic racism. We will delve deep into the history of our community gardens and examine our personal and collective roles as stewards of the land and as facilitators. During the workshop we will develop tangible action plans for uprooting these oppressions within our own gardens.

Preference for this training will be given to members of registered NYC Parks GreenThumb community gardens who can attend both training sessions and who apply with another member from their garden. Gardeners with all levels of experience with discussing these issues are welcome to apply.

For more information and to apply, please visit bit.ly/GTUprootingRacism2020. Applications are due by 11:59 p.m. Sunday, Dec. 8. Like all GreenThumb workshops, this training is free of charge.

Friday, Feb. 21 / 9:00 a.m. – 3:30 p.m. and Saturday, Feb. 22 / 9:00 a.m. – 3:30 p.m.

Location will be provided to participants once they are accepted into the program.

THE DAFFODIL PROJECT

New Yorkers for Parks 2019
Daffodil Distributions

Each fall, NY4P gives away approximately half a million free daffodil bulbs to individuals and groups planting them in New York City public spaces, including parks, community gardens, tree beds, and schoolyards.

Bulbs are free, but participants must register in advance.

Bulb registration opens August 16th, 2019.

Please visit ny4p.org/the-daffodil-project to register and find your borough’s distribution date and location.

Generous sponsors enable us to give away hundreds of thousands of free bulbs in every borough each year.

A special thanks to our School Planting Sponsor, Con Edison, helping us support the next generation of park stewards.

Cultive Plantas en su Ventana Utilizando Hidroponía
Happy Healthy Latina, Grow to Learn y GreenThumb

Aprenda a ahorrar dinero y aumente su temporada de cultivo con uno de los métodos más antiguos de jardinería de ventanas: la hidroponía. ¡La hidroponía es un método para cultivar plantas en el que solo se utiliza agua, nutrientes y un par de artículos domésticos que probablemente ya tenga! Conozca los beneficios y desventajas de este método de cultivo y compárelo con el cultivo en tierra. Salga de clase con su propio cultivo hidroponico con una de las siguientes plantas: cilantro, culantro, perejil, espinaca, menta, tomillo o albahaca.

Garden Highlight: Harvest Fair at Hattie Carthan Community Garden

Harvest Fair took place at Hattie Carthan Community Garden for several years during the early 2000s. The garden is located at Marcy and Lafayette Avenues in Brooklyn and is named for Hattie Carthan (1900–1984), a Bedford-Stuyvesant resident who had a lifetime interest in trees. Hattie Carthan Community Garden was established in 1981 as the Lafayette-Marcy Garden in the Bedford-Stuyvesant section of Brooklyn and renamed to honor Mrs. Carthan in 1985.
